

BMG Training Scheme Application Form

In order to be considered for membership of the British Association of Mountain Guides, an applicant must meet the requirements listed below:-

1. Be at least 22 years of age.
2. Submit the Association's medical form (available from the BMG office) completed by a medical practitioner.
3. Complete the Association's application form. If completing an electronic copy of this form, please add extra lines to the form, where needed, to list all relevant experience. If using a paper version, you'll have to do this the old fashioned way.
4. Provide written references from at least two referees, one of whom must be a fully qualified Guide. The Guide must be able to vouch, at least in part, for the authenticity of the candidate's application and be prepared to help and advise him/her through the scheme as a mentor. The Training Officer/Training Committee can assign a guide as a referee if the applicant does not know a Guide. One referee must be able to attest to the candidate's good character.
5. Provide details of a current first aid certificate with a mountain component.
6. List any relevant qualifications held e.g. MIA, MIC etc.
7. Send an Application Fee to British Association of Mountain Guides (details of the cost and the deadline for applications available from the BMG office).
8. Send a copy of your application form to both referees along with a pro forma for the referee to verify your application.

Candidates should note that the pre-requirements are high to help ensure that those who embark on the scheme have the commitment, experience and technical ability required to complete the scheme.

Note:

Please only record routes and climbs that you've completed in the last 10 years.

Any repetition within separate categories will not be accepted.

Contact the BMG office to receive the BMG Training Syllabus Handbook.

Rock Climbing Experience

At least fifty multi-pitch climbs E1 5b or above

List all multi-pitch climbs E1 5b or above in a wide variety of areas in the UK, such as the mountainous regions of Scotland, England and Wales. In all cases these routes must have been led or alternate led. Technical leads at E3 5c are recommended as this ensures that the applicant is consistent at E1 5b.

Examples of appropriate routes; The Bat, *Ben Nevis*, Saxon, *Scafell*, West Buttress Eliminate, *Clogwyn D'ur Arddu*, The Moon, *Gogarth*

Alpine Mountaineering Experience

Provide details of all Alpine mountaineering experience on routes of PD or harder, which should have been gained over a period of at least four years, and in at least three different areas eg Massif du Mont Blanc, Dolomites, Alpes Valaisannes. In all cases these routes must have been led or alternate led. Only ascents on foot should be listed here. Ski ascents should be recorded in the relevant section. Experience outside Europe will be considered, but the great majority of experience should be within Europe.

Skiing Experience

List a minimum of thirty five days ski-touring experience in glaciated Alpine terrain. At least twenty of these days must be on multi-day tours of at least four consecutive nights in huts. Also list a minimum of fifteen days lift accessed off-piste skiing in the Alps.

Applicants are expected to ski 'on-piste' at all standards, and in all conditions, with good style, demonstrating good balance, posture and control. Applicants should cope well in all off-piste conditions showing the ability to ski safely, effectively and in control. Ski touring outside Europe will be considered, but the majority of ski touring experience must be in the European Alps.

Do not include approaches to climbs in this section.

At least twenty days linked hut to hut ski touring (each tour being at least four consecutive nights in length) in glaciated terrain

About your application

Applications just reaching the minimum requirement may hinder that applicant's progress through the scheme. We advise you to treat these pre-requirements as a minimum.

Be prepared to answer any questions regarding your application, so that we can gain a better understanding of the routes you've recorded, summits climbed or winter tours skied.

Please turn up to any BMG exam or training course as best prepared as you possibly can be, it's a crucial collaborative approach towards your learning and personal safety as well that of your peers and trainers/assessors.

We look forward to receiving your application.
